A special selection of book-matched tiles. In this design, two tiles are arranged next to one another to give the appearance of an open book. Marble and porcelain are the most widely used book-matched tiles.

These book-matched tiles have a lot of versatility because they can be used on walls and floors. With these tiles, you can express your creativity in both indoor and outdoor spaces. However, book-matched marble and porcelain tiles are perfect for opulent office buildings and luxury residential projects. The wider and bigger appearance that this method of arranging tiles gives off a chic and modern look. Even accent walls can be made with book-matched tiles.
